Soldier Daddy	
To you I may be very small	
Or think I don't know much at all I've learned to grow up rather fast	
With so much future and not much past	
I'm just two years old but often sad	
I want so much to hug my dad	
He's protecting us from far away	
His life on the line everyday	
I watch my mom and see her cry	
I already know but still ask why? Her heart is hurting yet she tries to smile	
And we hold each other for a little while	
I'm still young yet very wise	
I have my fun but realize	
My soldier daddy is brave and strong	
I pray his deployment won't be long	
(Gina M. Makowsky)	(4)
(1) Write one word from the poem which means the same as the following.	1.1
(i) sensible with good judgements

Furthermore, pronunciations by the newscasters, actors or actresses are usually standardized, hence young children watching these programmes will							1.
(2) With the invention of television, many forms of entertainment have been replaced. Lively programmes like television serials and world news, have removed from us the need to read books or papers, to listen to radios or even to watch movies. In fact, during the 1970s, when televisions were first introduced, cinema theatres suffered great losses as many people chose to stay in the comforts of their homes to watch their favourite programmes. Indeed, the television brings the world into our house. Hence, by staying at home and pressing some buttons world happenings are immediately presented before us. Children nowadays develop faster in language, owing to the early exposure to television programmes. At such tender age, it would be difficult for them to read books or papers. Thus, television programmes are a good source of learning for them. Furthermore, pronunciations by the newscasters, actors or actresses are usually standardized, hence young children watching these programmes will							Q. I(

	RT C - COMPREHENSION (30 marks)	199
	Read the following text and do the activities that follow. (10 marks)	0. P. C.
a	Most people find animals like dogs, cats and birds adorable and some keep them in their homes s pets. However, there are also people who abuse animals. They enjoy torturing helpless creatures o gain a sense of control over them. Their pleasure is increased since these animals very often annot do anything to defend themselves.	
R	teports of animal abuse are increasing. One just has to look in the newspaper to see the increase in the number of cases of animal abuse. What is worse is that for every abuse ase reported, there are many more that are not. Not long ago, a local newspaper reported	
a	everal cases of animal abuse. In one particularly cruel case, a group of young people caught in eagle and did horrible things to it. Helpless to defend itself, the eagle had to endure is cruel torture. Apart from this case, there have also been several other cases in which	
posi	copie deliberately killed animals by throwing them out of high windows or poisoning them mply because they could not tolerate the noises the animals made. While most of us are	
st	sgusted to see or hear about such inhumane behaviour towards animals, animal abuse is ill on the rise. These animal abusers fail to consider the needs and feelings of the animals.	
to	order to reduce and ultimately prevent such cases of animal abuse in Sri Lanka, the Society r the Prevention of Cruelty to Animals (SPCA) was set up. The organization not only aims prevent cruelty to animals but also cares for unwanted animals that have been badly abused.	
SC	he SPCA has embarked on some programmes to prevent animal abuse. They give talks in hools explaining why animals should not be abused. It is only through educating the public	
th	at animal abuse can be prevented.	

.

 (1) In the space provided beside each sentence given below, write T (True) if the sentence is examined to sufficient to decide. (a) Almost all the cases of animal abuse are reported in newspapers. (0	In the same south of the same second se	For

For example, used paper can be turned into cardboard, which can be used to make book covers. Recycling can reduce pollution, save materials, and lower energy use. Yet, some argue that recycling wastes energy. They believe that the process of collecting, and converting waste uses more energy than it saves. Still, recycling is better for the planet than land-filling. (iii) Land-filling is the oldest method of managing waste. In its simplest form, land-filling is when people bury garbage in a hole. Over the years, the practice of land-filling has advanced. Garbage is compacted before it is thrown into the hole. In this way, more garbage may be put in each landfill. Large liners are placed in the bottom of landfills so that toxic garbage juice doesn't get into the ground water. Sadly, these liners don't always work. Landfills may pollute the local water supply. Not to mention that all of that garbage stinks. Nobody wants to live next to a landfill. This makes it hard to find new locations for landfills. (iv) As landfill space increases, interest in composting grows. Composting is when people pile under the space increases. 	(4)	white one word for each blank, selecting from the passage, which means the same as each of	3 -
 (b) protect somebody from attack Read the following text and do the activities that follow. The text has six paragraphs. (I-VI). One word in the first paragraph (I) has been deleted. (20 marks) (i) Garbage cans are not magical portals. Trash does not disappear when you toss it in a can. Where does all that trash go? There are four methods to manage waste: recycling, land-filling,, and incinerating. Each method has its strengths and weaknesses. (II) Recycling is the process of turning waste into new materials. For example, used paper can be turned into cardboard, which can be used to make book covers. Recycling can reduce pollution, save materials, and lower energy use. Yet, some argue that recycling wastes energy. They believe that the process of collecting, and converting waste uses more energy than it saves. Still, recycling is better for the planet than land-filling. (III) Land-filling is the oldest method of managing waste. In its simplest form, land-filling is when people bury garbage in a hole. Over the years, the practice of land-filling has advanced. Garbage is compacted before it is thrown into the hole. In this way, more garbage may be put in each landfill. For examiner's	One thing that is easier to do is burning garbage. There are two main ways to incinerate waste. The first is to create or harvest a fuel from the waste, such as methane gas, and burn
use only	the fuel. The second is to burn the waste directly. The heat from the incineration process can
	boil water, which can power steam generators. Unfortunately, burning garbage pollutes the air. Also, some critics worry that incinerators destroy valuable resources that could be recycled.
) Usually, the community in which you live manages waste. Once you put your garbage in a
	can, what happens to it is beyond your control. But you can make choices while it is still in your possession. You can choose to recycle, you can choose to compost, or you can choose
	to let someone else deal with it. The choice is yours.
	In the space provided beside each sentence given below, write \mathbb{T} (True) if the sentence is correct and \mathbb{F} (False) if it is wrong and \mathbb{U} (Unknown) if the information given in the text is
a 1	not sufficient to decide.(a) Developed countries use recycling method more often than other waste management
1 a 1	- methods. ()
	(b) Due to high amount of plastic in garbage, it is difficult to produce compost on ()
	a large scale.(c) The writer does not recommend one method of waste management as the best. ()
) Underline the most appropriate response in each of the following.
	(a) Which of the following is the most appropriate word to fill in the blank in paragraph 1?
	(i) processing (ii) composting
	(iii) destroying (iv) locating
	(b) Which of the following is true?
	(i) Burning garbage does not cause environmental pollution.
	(ii) Landfills can cause environmental pollution.(iii) Compost and land-filling can be used to make the soil richer.
	(iv) Land-filling is a more effective method than recycling.
	(c) Which of the following is not true according to paragraph V?
	(i) Burning garbage is an easy method of waste management.
	(ii) There are no advantages of incinerating method.
·	(iii) Incinerating method has both advantages and disadvantages.(iv) Incinerating method can harvest a fuel from the waste.
	(d) Which of the following is the most appropriate title to this text?
	(i) Recycling Garbage; a better method of waste management.
	(ii) Methods of Waste Management; their strengths and weaknesses.
201	(iii) Waste Management Methods; four types and their advantages.
	(iv) Recycling Garbage: its strengths and weaknesses.
2 - Č.) Fill in the blanks in the following passage, based on the information in the above text. Do not use more than two words in each blank.
	Throughout history, waste has been generated by humans. In areas with low population density,
	waste generation may have been negligible. Therefore, in the past (1) was
С	a very satisfactory method of waste management. As the population grew, the build-up of waste caused a rapid deterioration in the general quality of life. As a result, people realized
11 1	the importance of other methods of (2) management. They began to
	(3) the waste. The heat generated from this process was used to boil water. However, incineration process led to air pollution. In another method, people are thinking of
	turning waste into new materials, the process of which is referred to as (4)
	Though it has many advantages, we cannot ignore the fact that it uses more (5)
	than it saves.

	(4) Who or what do the pronouns in bold print in the text refer to?	For
	(a) it (paragraph II)	examiner
	(b) they (paragraph IV)	use only
	(c) it (paragraph VI)	Q. II
		1.
	(5) Write one word for each blank, selecting from the passage, which means the same as each of the given words/phrases.	2 -
	(a) make something less or smaller in size/quantity	4-
I	(b) developed/improved	5 -
l	(c) containing poison	
		Total
	(d) very useful/important	20
